

TRYBSON

BAND STORY

"

From a very early age, Trybson received rave reviews and adulations from friends and adults around him with his spur-of-the-moment lyrics and unique ability to sing in different music genres including Juju, Fuji, Rap and Hip Hop with effortless ease.

Destined to be a performing musician, Trybson started singing from his secondary school days and continued all through his University days as a lead singer for several campus bands. He later cut his teeth as a professional singer with various bands before going solo earlier this year.

His first hit singles titled '**Koyemi**' and '**The Reason**' announced his arrival as a breath of fresh air in the music industry with a legitimate claim to super stardom early this year.

Discovered by Stingomania Records 6 months ago, Trybson matured into a credible recording artiste when he teamed up with his childhood friend, Da Piano, to produce 11 consecutive hit tracks for Stingomania records including the monster track titled Dudukoko.

With Dudukoko currently taking over the airwaves, and setting tongues wagging about the meaning and origin of the mysterious Dudukoko phenomenon, it is no longer in doubt that Trybson is ready for the big leagues...
